Experience

Jr Financial Data Analyst **Jul 2026 – Present**
SkyLimit_Group *Hyderabad, India*

- Transitioned from Junior Accountant role to focus heavily on financial data analytics and business insights.
- Analyzed large financial datasets to identify cost savings, revenue trends, and key business insights.
- Built automated reports and interactive dashboards using **Microsoft Power BI** and **Excel** for real-time management visibility.
- Partnered with cross-functional teams to assist with financial modeling, forecasting, and data-driven budgeting.

Accounts Receivable (AR) Analyst & Jr Accountant **May 2026 – Jul 2026**
SkyLimit_Group *Hyderabad, India*

- Monitored the Accounts Receivable (AR) ledger and executed daily aging analysis to actively track and minimize Days Sales Outstanding (DSO).
- Reconciled high-volume customer payments against bank receipts, identifying and resolving billing variances to ensure data integrity.
- Managed end-to-end billing execution and invoice generation, ensuring strict compliance with revenue recognition standards (IFRS 15).
- Collaborated closely with Sales and Customer Success teams to resolve client payment disputes and expedite cash collections.

Finance Operations Intern **May 2025 – July 2025**
Mindsparc Innovations *Hyderabad, India*

- Validated **1,000+ transaction-level records** ensuring financial accuracy and reporting consistency.
- Supported **monthly variance analysis** and internal reporting processes.
- Improved reporting accuracy by **15%** through structured validation checks.
- Maintained documentation aligned with audit and compliance requirements.

Projects

GatiGo – Startup Financial Planning & Analysis Model **2025**

- Developed a **3-year financial model** covering revenue projections, cost structures, and working capital planning.
- Performed **Cost-Volume-Profit (CVP) analysis** to determine break-even levels and pricing decisions.
- Conducted **scenario analysis** to assess the impact of cost and pricing changes on profitability.
- Performed **variance analysis** by tracking actual performance against initial financial projections to identify deviations and support decision-making.

Corporate Performance Review – Rail Vikas Nigam Ltd. (RVNL) **2025**

- Conducted **multi-year financial analysis** to evaluate revenue growth, cost structure, and profitability.
- Analyzed operational efficiency and key financial ratios for performance evaluation.
- Developed structured insights to support internal decision-making.

Enterprise Data Analytics & Dashboards **2025**

- Developed **Power BI dashboards** transforming large-scale CSV transaction datasets into executive-level reporting tools with geographical & product-level insights.
- Designed **Accounts Receivable Aging models** to track 30-60-90 day collection cycles and improve working capital visibility.
- Built **fixed asset tracking and depreciation schedules** to support accurate financial reporting.

Citi Virtual Experience (Forage) – Finance Simulation **2026**

- Analyzed financial datasets to interpret operational performance and reporting metrics.
- Identified variance trends across business units to improve reporting accuracy.
- Prepared structured management insights based on financial data.
